

Christian Word Search-n-Rescue

Designed by Christopher Sealey

Theme - Old Testament

Christian theme Word Search-n-Rescue is a new twist to the old favorite Word Search puzzles. It combines the challenge of a crossword with a word search's quick-hit of solving satisfaction. Unlike most word find puzzles, in which the player knows what words he or she is searching for, Word Search-n-Rescue gives crossword-style clues for the hidden words and an unexpected challenge of a hidden clue.

First, determine the word by using the clue and the number of letters in the word. The words are hidden in the diagram of letters. Search and rescue the words by reading forward, backward, up, down, and diagonally, always in a straight line and circle the words. Some of the letters in the diagram are used in more than one word and some are not used in any words. When you locate a word on the diagram, rescue it by drawing a loop around it.

For bonus, use the circled letters and the inspirational clue to search and rescue the hidden phrase in the diagram.
